### 100 U. S. WOMEN GOING TO FRONT IN CANTEEN WORK

American women will go to the French front to provide our soldiers with comforts and luxuries on their way to and from the trenches, the Red Cross announced today. One hundred women have been selected to take charge of canteens and rest stations. The Red Cross has appropriated \$700,000 for canteens, which will be equipped with shower baths, laundries, and mending and disinfecting rooms. Rest rooms will have reading and writing materials, games, tinners

delicacies, tobacco and other luxuries for the returning soldiers.

The women, who have been chosen for special qualifications, will serve without pay and bear their own expenses. Only women of robust health who speak French are to be taken. They are all between the ages of thirty and fifty, and have either worked for the Red Cross or in occupations requiring a high order of capability and self-sacrifice.

Two sisters of Secretary of State Lansing, Miss Katherine P. E. Lansing and Miss Emma Sterling Lansing, Watertown, N. Y., are among the women to go.

### War Service Is Voluntary.

Many foreign women in the United States believe they are to be drafted for war work. It is declared by the woman's committee of the Council of National Defense. To clear up the misunderstanding the committee states that registration by women for war service is purely voluntary, and urges all women over sixteen to volunteer in order to complete a census of the woman power of the country.

### Expert Optical Service

With the growth of our Optical Department we have secured the services of Dr. Lewis H. Kraskin, who has had eleven years of practical experience in examining the eye and fitting glasses. We have engaged also an expert mechanic to do grinding, surfacing and adjusting. We cordially invite you to avail yourself freely of advice and consultation in all matters pertaining to the eye.

**We Do Our Own Grinding on the Premises. Lenses Duplicated While You Wait. Oculist Prescriptions Filled.**

### CHILDREN'S TINY GIFTS TOTAL \$22 FOR SMOKE FUND

From an eight-year-old boy—William F. Dismar, Jr., son of Mr. and Mrs. William F. Dismar, of 1347 Columbia road—today came a check for \$22 for the Tobacco Fund. This money "Bilby" collected through a little club which he organized when the war started, and named the Junior Army and Navy Club. Each child was asked to give 2 cents or more each week. When "Bilby" read of the plan of The Times to send smokes to our soldiers abroad he asked his co-workers to divert the club's fund toward that end. This was unanimously agreed.

Among the contributors were: William F. Dismar, Jr., organizer, 1347 Columbia road; Johnson Heare and Gertrude Heare, 1346 Columbia road; Wanda Richardson, and Billy Richardson, 1233 Columbia road; Hope Windsor, 1312 Irving street; William Hill, 11 R street; Alice Larrimore, 633 H street northeast; Elinor Middekouf, 2022 Park View; Beatrice Marzolf, 1023 Otis place; Wesley Hanford, 3708 Keokuk street, Chevy Chase; Kent Curtis, 3710 Keokuk street; Sarah Eckardt, 233 Florida avenue; Charles Eckardt, 44 Q street northeast; J. Russell, 1812 Belmont street; Walter Holt, 1431 Harvard street; Frances Buterworth, 2532 Fourteenth street; Raymond Johnson, 1124 Columbia road; Jean Milane and Calvin Milane, 1127 Girard street; Leah Woods and Charles Woods, 1536 East Capitol street; Norton Bush, 3161 Mt. Pleasant street; David Uitz, 423 Hobart street; Ford Young, 3430 Brown street; Francis Hutchinson, 747 Hobart street; and Floyd Ormsby, 1108 Euclid street.

### Neutral Contributions.

The Washington Times Tobacco Fund not only already has the financial support of a considerable number of "patriotic Americans" and is going to continue to have it throughout the duration of the war, but even neutrals are donating.

For instance, here is a letter from George W. Kreis, secretary of the

### TIMES SMOKE FUND REACHES \$1,887.95

Contributions thus far made to The Washington Times Tobacco Fund include:

Previously acknowledged, \$1,865.15

Harry King 10.00

Employees of Department 10.30

Hollie Ashby, Radnor, Pa. 1.00

Fred Clarke, Radnor, Pa. 1.00

Harry Wille, 400 Fifth street northeast 25

Sidney C. Schlamm 25

Total \$1,887.95

### Finance department in the War Department.

She had been reading about the fund to provide smokes for American soldiers overseas and, not observing anyone "getting busy" to raise money in the office in which she worked, she took it upon herself to pass the hat.

The cost accountants contributed \$12.50 in less time than it takes to tell it. The other employees in the finance division made sufficient donations to bring the total up to \$25.15.

### Set Fine Example.

The Washington Times Tobacco Fund looks at the matter in this way:

"If it is worth \$5 to the neutral members of a Swiss club to see the boys encouraged to 'fight on,' it ought to be worth several times that amount to all clubs composed of good, red-blooded, patriotic Americans. How about it, Mr. American Clubman?"

### One of the most gratifying observations made since The Washington Times Tobacco Fund was started was that many contributions came from grouped employees in Government departments. The Federal workers have done nobly, and subscription lists have been received from a number of bureaus in the various departments. The fund will not be complete, however, until all the department workers have contributed something to it and made donations on several occasions.

Some men or women in every Government bureau should appoint himself or herself captain of a "Smokes For Soldiers" Club, and make collections for this fund every week.

If any of the Federal employees are seeking inspiration, let them look at the case of pretty Miss Matilda Blank, a stenographer-clerk in the cost accountant's office of the ord-

### Come to Us for All Homefurnishings

## On Credit

### An Attractive Home Will Keep Your Children Off the Streets

**What We Offer:**

The most helpful form of Credit that can be devised. In arranging for small weekly or monthly payments on a charge account we are more considerate than any other house in America. We make these terms to correspond with the circumstances of each individual customer; we enable them to afford the attractive patterns in the better qualities.

Our stocks include lines that range from the low priced to the expensive, but every value we offer is so thoroughly reliable that you may depend upon it for long and satisfactory service. Come to us for anything that is needed to make your home more comfortable.

Conscientious parents that wish to give their children strength of character, education, and moral standards they can be proud of, cannot afford to have their children roaming the streets at night, and it is hard to prevent them from doing so if the streets are more attractive than the home. Look about your home and see if it is as attractive as it should be. See what wonderful changes could be made with a few pieces of good-looking furniture. Think of the pride that your children will take in a home that is beautifully furnished and then realize that YOUR home can be beautifully furnished without any great inconvenience to yourself under our convenient credit system. Let us explain this more in detail at your leisure.

### Nuxated Iron Should Be Used In Every Hospital and Prescribed by Every Physician

**SAYS FORMER HEALTH COMMISSIONER WILLIAM R. KERR**

It quickly enriches the blood, strengthens the nerves and puts most astonishing youthful power and vigor into the veins of both men and women. It often increases the strength and endurance of delicate, nervous, run-down folks 100 per cent in two weeks' time.

Opinions of Dr. Schuyler C. Jacques, Visiting Surgeon St. Elizabeth's Hospital, New York—Dr. James Louis Beyer for 15 years Adjunct Professor, New York Homeopathic Medical College; Dr. A. J. Newman, former House Surgeon, Jefferson Park Hospital, Chicago, and other physicians who have tested Nuxated Iron in their own private practice.

In commenting on the statement of Former Health Commissioner Kerr in regard to the wide-spread use of Nuxated Iron by Hospitals and physicians, Dr. James Louis Beyer, for fifteen years Adjunct Professor of the New York Homeopathic Medical College, said: "I heartily agree with Commissioner Kerr. Nuxated Iron is a remedy of most astonishing power. As a physician I have always been opposed to prescribing advertised remedies, and for 15 years I have been a student in the New York Homeopathic Medical College. I taught my medical students that such remedies were generally valueless, but in the case of Nuxated Iron, severe tests made on myself and numerous patients have absolutely convinced me that it is a remedy of most extraordinary merit and one which should be generally prescribed by all physicians. Notwithstanding the fact that I am nearing my 80th birthday, a short course of Nuxated Iron has made me feel like a new man. Friends say 'What have you been doing to yourself, you look so well and full of life.' In my opinion there is nothing like organic iron—Nuxated Iron—to put youthful strength and power into the veins of the weak, run-down, infirm or aged. But beware of the old forms of metallic iron which often do more harm than good. To be absolutely sure that my patients get real organic iron and not some form of the metallic variety, I always prescribe Nuxated Iron in its original package."

Dr. E. Sauer, a Boston Physician, who has studied both in this country and great European medical institutions, was asked what he thought of Commissioner Kerr's remarks. In reply, he said: "I fully agree that people need more iron—as I have had a hundred times over, organic iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run-down, instead of doing themselves with habit-forming drugs, stimulants and alcoholic beverages, I am convinced that this way they could ward off disease, preventing it becoming organic in thousands of cases and thereby the lives of thousands might be saved."

Dr. N. H. Hornsline, for ten years in the Department of Public Health and Charities, Philadelphia, says: "During my connection with the Department of Public Health and Charities as District Physician, and with the Department of Public Safety as Police Surgeon, also as a member of important hospital staffs, I was often asked by both physicians and laymen, 'Doctor, what do you recommend to renew the supply of iron in the blood of people

**Wm. R. Kerr**  
Former Health Commissioner, City of Chicago.

"As Health Commissioner of the City of Chicago, I was importuned many times to recommend different medicines, mineral waters, etc. Never yet have I gone on record as favoring any particular remedy, but I feel that in Nuxated Iron an exception should be made to the rule. I have taken Nuxated Iron myself and have experienced its health-giving, strength-building effect, and in the interests of the public welfare, I feel it my duty to make known the results of its use. I am well past my three score years and want to say that I believe my own great physical activity is due largely today to my use of Nuxated Iron, and if my endorsement shall induce anemic, nervous, run-down men and women to take Nuxated Iron, and receive the wonderful tonic benefits which I have received, I shall feel greatly gratified that I made an exception to my life-long rule in recommending it. From my own experience with Nuxated Iron I feel that it is such a valuable remedy that it ought to be used in every hospital, and prescribed by every physician in this country."

lack of confidence in the ordinary forms of metallic iron salts with which there has been so much dissatisfaction. After carefully examining the formula of Nuxated Iron, I realized that here at last was organic iron, the only kind I could conscientiously recommend. It was in such a way with other ingredients as to be a quick revitalizer of the blood, a true strength builder, and an administration in a number of stubborn cases where other tonics had utterly failed, and only served to convince me absolutely of the remarkable and unusual power of Nuxated Iron. When I personally took it, I found that its effect was such that it gave me a vitality with which my energy and endurance increased most surprisingly."

NOTE—Nuxated Iron which is recommended and recommended above by physicians in such a great variety of cases is not a medicine nor secret remedy, but one which is well known to druggists and whose ingredients are widely prescribed by eminent physicians everywhere. Unlike the older concoctions of iron, it does not irritate the stomach, does not injure the teeth, make the tongue black nor upset the stomach, on the contrary it is a most palatable remedy in all forms of indigestion, as well as for nervous, run-down conditions. The manufacturer has such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 50 per cent or over in two weeks' time provided they have no serious organic trouble. They also offer to refund one dollar if it does not at least double their strength and endurance in ten days. This is a direct in this city by James O'Donnell Drug Store, Powers & Drug Store, and all good druggists.—Adv.
